AUTUMN WINTER 23

Danshan · AW23 · Polaris
Press Release

Introducing Danshan AW23 Collection: an homage to those who are brave and strong, leaving everything they know behind in search of the unattainable.

This is a collection which encapsulates a newfound appreciation for the fragility of life and mortality, as well as a newfound respect for the experiences and scars acquired during our personal journeys.

Danshan honours the spirit of exploration, adventure and striving for something greater and wishes for everyone to seek the miraculous and live life without regrets.

Let Danshan AW23 collection become your companion, travelling with you and giving you comfort as you forge through the quest for the miraculous and undiscovered.
