

## **design\_download: Alexander McQueen - PDF Printing Help**

### **Printing from home/office**

You may print the document from your own printer onto US Letter/A4 size paper, and join all the sheets together to create the final actual size pattern. You will need to cut the edges of each sheet using the trim marks as guides (your printer may not print to the very edge of the page) and then join them together using tape.

To print on Letter/A4 sized paper, use ONLY these two files:

**mcqueen\_download\_sheet\_1.pdf**  
**mcqueen\_download\_sheet\_2.pdf**

These files contain the pattern parts on two large sheets, split over fifty Letter/A4 pages. Each file contains 25 pages and makes up one sheet, you will need to print all 25 pages of each file to make the garment.

### **Large format printing through a copy shop**

The PDF pattern is reproduced in black and white on two A0 sized pages (A0 = 84.1 x 118.9cm) designed to be easily printed on a large scale black and white printer at a copyshop. Therefore you may prefer to have the document printed through a copy shop or bureau. Large scale black and white copies from digital files are inexpensive. Colour printing will be more expensive and is not necessary. You may be able to e-mail the PDF document to the copyshop, check with them for further advice.

To print large format, use ONLY this file:

**mcqueen\_download\_sheet\_LG1&2.pdf**

This file contains all the pattern part on two large A0 size pages. You will need to print both pages in order to make the garment.
